

Training proposal on SAP Commerce (Hybris)

Duration: 20 Days – 48 Hours

17th Aug – Day 1

Infrastructure Overview

- SAP Commerce Cloud Infrastructure
- Cloud Native Commerce

Docker Fundamentals

- Docker Architecture
- Images
- Containers

Docker Components

- Volumes
- Networking
- Docker Compose

18th Aug – Day 2

Kubernetes Introduction

- Kubernetes Fundamentals
- Kubernetes Architecture
- Pods

Kubernetes Workloads

- ReplicaSets
- Deployments
- Services

Cloud Deployment: (Part of Self learning)

- Azure Kubernetes Service (AKS)
- Automation Engine
- CI/CD Overview

19th & 20th Aug – Day 3 and Day 4

SAP Commerce Integration Basics

- Integration Architecture
- Integration Patterns
- Web Services

APIs & Security

- Event-Driven Architecture
- Integration APIs
- OAuth 2.0

Monitoring & Performance

- Monitoring
- Error Handling
- Performance

21st Aug – Day 5

Extended Integration Overview

- SAP CPI / SAP Integration Suite
- OData
- SAP BTP
- S/4HANA Integration Overview

24th & 25th Aug – Day 6 & Day 7

SAP Integration Suite

- SAP Event Mesh
- SAP Customer Data Cloud (CDC)
- SAP Identity Authentication Service (IAS)
- SAP CPQ

Lab

- SAP Integration Suite Environment Setup
- Login to SAP BTP
- Explore Cloud Integration
- API Management

26th Aug – Day 8

Lab

- Create First iFlow
- Configure Sender
- Configure Receiver
- Content Modifier

Lab

- Message Mapping
- Deploy iFlow
- Trigger Integration
- Monitor Execution

27th Aug – Day 9

Lab

- REST API Integration using CPI
- HTTP Sender Adapter

- HTTP Receiver Adapter
- JSON Transformation

Lab

- Deploy REST Integration
- Test using Postman
- SAP Commerce → CPI → External Shipping API

28th & 31st Aug – Day 10 and Day 11

SAP Commerce Integrations

- Headless Commerce
- Payment Integrations
- OMS
- SAP Data Hub
- Marketing Cloud Integration
- Qualtrics Integration

Lab

- OAuth Client Configuration

1st Sept – Day 12

Lab

- Client Credentials Flow
- Generate Access Token
- Secure APIs
- Token Validation

2nd Sept – Day 13

Lab

- OData Service Consumption
- GET Operations
- Product Retrieval
- Customer Retrieval

Lab

- Filtering
- Sorting
- Pagination

3rd & 4th Sept – Day 14 and Day 15

Spartacus & Angular

- Headless Commerce
- Spartacus Architecture
- Angular Fundamentals
- Components
- Modules
- Services

Topics

- Dependency Injection
- Routing
- Reactive Forms
- State Management

Lab

- Install Spartacus

7th Sept & 8th Sept – Day 16 and Day 17

Topics

- OCC Integration
- Theming
- Responsive Design

Lab

- Homepage Development
- Product Pages

Lab

- Shopping Cart

9th & 10th Sept – Day 18 and Day 19

Customization & Enterprise Development

- Extension Development
- Items.xml
- Type System
- CronJobs
- Business Processes

Topics

- Solr
- Rule Engine
- Personalization

Lab

- Create Custom Extension

Topics

- Security
- SmartEdit

Lab

- Solr Configuration

11th Sept – Day 20

Q & A - 0.5 Hours
